Spring 2023 Tryout Tune-Up Clinics

PROGRAM DESCRIPTION

Tune-Up Clinics are designed for all athletes – regardless of club affiliation of participation – who are looking for additional touches and feedback before their middle school/high school try-outs. Clinics will be particularly beneficial for non-club players who are looking to brush up on their skills or try out for their school team for the first time!

CLINIC DESCRIPTIONS

Serving: Arguably the most important skill in volleyball. Coaches will introduce mechanically sound overhead serving principles including the coordination of the lift/toss and swing, the lift/toss location, and the ideal contact point of the ball.

Attacking: A combination of armswing & footwork. Coaches will introduce athletes to correct posture, hand control, and applicable footwork patterns.

Passing & Defense: If you can pass the ball to the setter consistently, your team will likely win a lot of games. Defense is about eyework, posture, contact, & movement, but primarily about attitude!

Setting: A combination of footwork, hand positioning and set location will give players the opportunity to improve their overall setting technique.

All-Skills: These sessions are designed for players who are looking for reps in all five of the primary skill groups: Serve, Pass, Set, Attack, & Defend. Focus will be more “live” 5 v 5 and 6 v 6 play with a multi-touch emphasis.
