Personal

- I was born and raised in Murfreesboro, TN where I went to school at Siegel High School and got my Bachelor's Degree from Middle Tennessee State University. I studied Organizational Communication and had specializations in Sociology and Political Science which really aligned with my interest. I've always loved building connections with people and getting to know what drives them and how to shift that into gear. I was raised by a teacher and have always said that I am a teacher at heart. I have my 200HR Yoga teaching certification and love meeting new people in the yoga community. Aside from work and hobbies, I have two fur babies at home, Eleanor and Benjamin, who are the most spoiled kitty cats you'll ever see!
